Dear Mr. Van Mourik:

The Office of Energy Efficiency at Natural Resources Canada commends your firm for contributing to energy efficiency improvements at the Woodstock General Hospital.

These energy efficiency efforts have not only saved your client money, they have also reduced greenhouse gas emissions and air contaminants – and will continue to do so in future.

We would also like to express our thanks for carefully tracking and reporting these results, thereby helping Natural Resources Canada evaluate its success.

We hope that you will continue to contribute to Canada's economic and environmental well-being. This will also inspire others to take on the energy efficiency challenge.

Sincerely,
